

Your notices and announcements: How to **communicate** them effectively and **economically**

Dear reader:

If you have a tender opportunity, notice or announcement, or are looking to hire employees, the Canadian Design and Construction Report's new notice announcement system could support your objectives.

The process is simple: Just visit cadcr.com/form, and fill in the information to request publicity for upcoming bidding or tender opportunities, post notices of completion (substantial performance), career or special subtrade opportunities.

Once your order is confirmed, we'll publish your notice prominently on our website and in the eletter(s) appropriate to your market, as well as on the Cadcr.com website.

All notices are published for a flat fee of \$295.00 plus HST (Net) or \$368.75 (Gross). We will invoice you upon publication and you can pay by cheque, credit card, or bank transfer. The net rate is available if payment is made within 15 days of invoicing, otherwise (unless special arrangements are made) the Gross rate applies.

For your first notice, take advantage of special savings – a 50 per cent discount. Just let us know your interest by referencing Promo Code CADCR50% by return email to chase@cadcr.com. You can also ask him any questions you have about the service by email or by phoning (888) 627-8717 ext 221.

Sincerely,

Mark Buckshon
